

Research Plan

- Task 1 - **Evaluation** (T1): *Construction of Test Collection*
- Task 2 - **Query Formulation** (T2): *How an information specialist formulates a query to retrieve medical study citations*
- Task 3 - **Retrieval for Screening** (T3): *How an IR system uses the queries to search citations*
- Task 4 - **Screening Prioritisation** (T4): *How to rank citations from most relevant to least*

RESEARCH QUESTION: ARE CARDIO SELECTIVE BETA-BLOCKERS...

RECOMMENDATION: BETA-BLOCKER TREATMENT
REDUCES MORTALITY...

T1: Construction of Test
Collection

RQ1

T2: Query Formulation

RQ2

T3: Retrieval for Screening

RQ3

T4: Screening Prioritisation
