

RESEARCH QUESTION: ARE CARDIO SELECTIVE BETA-BLOCKERS...

RECOMMENDATION: BETA-BLOCKER TREATMENT
REDUCES MORTALITY...

T1: Construction of Test
Collection

RQ1

T2: Query Formulation

RQ2

T3: Retrieval for Screening

RQ3

T4: Screening Prioritisation

T3: Retrieval for Screening

- Investigate if the **query and document relationship** can be improved
 - The structure of a document **could be improved to better support queries** (e.g. additional labels, text classification)
- This task differs from the previous in that it does not look at improving queries, but **improving the search system**
- This work was published in **CIKM 2017**
